

Evidence 4 Faith has wrapped Part 1 and Part 2 of our "David & The Giants" series! Get ready to launch into Part 3: Giants in March.

Immersed in

After all the live events in January, I only had one this month. On the 16th, I spoke at Living Stones Fellowship in Stevens Point. The topic was evidence to support the existence of the giant David fought and defeated – Goliath. (This is Part 2 of the **David & The Giants** video series.) Many of them mentioned that I always manage to teach them something new. We are always blessed by the love and support shown to us by this church family.

Most of this month I was **immersed in** the final editing stages of the Marine Biology textbook. It has been very time-consuming but will be so rewarding to share the finished product with the students on this year's Marine Biology trip.

We just published the last video in Part 2 of the **David & The Giants** series. The third and final part, **Giants**, is ready to be recorded. So, watch for it to be posted soon. I have launched a new podcast series entitled **Unpacking Darwinian Evolution**. The first episode is available on the website with more to follow shortly. Listen at <https://evidence4faith.org/portfolio/unpacking-darwinian-evolution/>.

We can't wait to see the fun, new memories, and eternal impact God unlocks on this year's Marine Biology trip!
