

SCIENCE & THE BIBLE:

God is the Creator

Francis Crick

and Atheist

From his book *Life Itself:
Its Origin and Nature*

“An honest man, armed with all of the knowledge available to us now, could only state that in some sense, the origin of life appears at the moment to be almost a miracle, so many are the conditions which would have to have been satisfied to get it going.”

So how did life and matter form on this unique planet?

The Master Designer told us how it
began in His Word.

Genesis 1:1 (ESV)

*In the beginning, God created the
heavens and the earth.*

Exodus 20:11 (ESV)

For in six days the LORD made heaven and earth, the sea, and all that is in them...

Ex 31:17 (ESV)

...in six days the Lord made heaven and earth...

Job 12:7-9 (ESV)

*“But ask the beasts, and they will teach you;
the birds of the heavens, and they will tell you;
or the bushes of the earth, and they will teach
you; and the fish of the sea will declare to you.
Who among all these does not know that the
hand of the LORD has done this?”*

Psalms 33:6,9 (ESV)

*By the word of the Lord
the heavens were made...
For he spoke, and it came to be.*

Psalms 104:24-25 (ESV)

*O LORD, how manifold are your works!
In wisdom have you made them all;
the earth is full of your creatures. Here is
the sea, great and wide, which teems with
creatures innumerable, living things
both small and great.*

Isaiah 37:16 (ESV)

*“O LORD of hosts, God of Israel,
enthroned above the cherubim,
you are the God, you alone, of all the
kingdoms of the earth; you have made
heaven and earth.*

Isaiah 42:5 (ESV)

*Thus says God, the LORD,
who created the heavens*

Isaiah 45:12 (ESV)

*I made the earth and created man on it;
it was my hands that stretched out the
heavens, and I commanded all their host.*

Isaiah 45:18 (ESV)

For thus says the LORD, who created the heavens (he is God!), who formed the earth and made it (he established it; he did not create it empty, he formed it to be inhabited!): “I am the LORD, and there is no other.

Mark 10:6 (ESV)

*But from the beginning of creation,
'God made them male and female.*

Mark 13:19 (ESV)

*from the beginning of the creation
that God created until now*

John 1:1-3 (ESV)

*In the beginning was the Word,
and the Word was with God, and the
Word was God. He was in the beginning
with God. All things were made through him,
and without him was not any thing made
that was made.*

Colossians 1:16 (ESV)

For by him all things were created, in heaven and on earth, visible and invisible, whether thrones or dominions or rulers or authorities—all things were created through him and for him.

Hebrews 1:2 (ESV)

*he has spoken to us by his Son,
whom he appointed the heir of all
things, through whom also he
created the world.*

**But is there any evidence
that God actually created the
universe and all life forms?**

First of all, let's examine the probability of random chance making the first enzyme for a living thing.

Enzymes are proteins that speed up and perform chemical reactions in cells.

Since enzymes are protein, they are composed of thousands of the essential 20 amino acids in a long folded chain. The correct order is critical for that enzyme to function properly.

Mathematicians have studied the odds of random chance making just one simple enzyme at something like $1:10^{125}$.

Now, if a single bacterial cell
needs a minimum of 2,000
different enzymes just to
barely live...

the odds are astronomical!

In their book *Evolution from Space*, Dr. Fred Hoyle and Dr. Chandra Wickramasinghe state that the odds of two enzymes being formed by random chance in a single bacterial cell is **1:10^{20x2000} or 1:10^{40,000}!**

1:10⁵⁰

Now, in the 1990's mathematicians and physicists determined that the odds of anything happened beyond 1:10⁵⁰ is scientifically impossible.

This is part of the reason why
Dr. Crick wrote that life here
appears to be a miracle.

It is a miracle!

This leads us to DNA

DNA contains information equivalent to 1.5G bytes. That is more information than can be stored on 2 CDs.

Jay Roth, former professor of cell and molecular biology at the University of Connecticut and an expert in DNA wrote in *“The Piling of Coincidence”* on the origin of DNA that,

“It appears it is reasonable at present to suggest that possibility of a creator.”

Bill Gates

Microsoft Co-founder
& Philanthropist

“Human DNA is like a computer program but far, far more advanced than any we’ve ever created.”

Dr. Stephen Meyer
Discovery Institute

“When we find information in a DNA molecule encoded in digital form, the most logical conclusion is that the information had an intelligent source.”

Since DNA is a digital language, and a language is always a product of intelligence, doesn't it seem logical to say that there was a superior intelligence or designer that made it?

DNA Replication process

To think of transcription, translation, and protein synthesis could develop on its own by random chance is against all probability and possibility.

The *SETI* project, the search for intelligent life in the universe, is based upon the premise that if a digital language can be found in outer space, it would indicate life.

Well, a digital language is
found in the natural universe:

DNA

If the odds of making just one small enzyme by random chance is $1:10^{125}$, what are the chances of all of these necessary enzymes being formed by random chance to run one cell?

**Logic shouts
the existence of a
Creator God.**

**Dr. Wernher
Von Braun**

NASA Aerospace Engineer

*Letter to the California
State Board of Education,
September 14, 1972*

“For me, the idea of a creation is not conceivable without invoking the necessity of design. One cannot be exposed to the law and order of the universe without concluding that there must be design and purpose behind it all.”

Romans 1:19-20 (ESV)

For what can be known about God is plain to them, because God has shown it to them. For his invisible attributes, namely, his eternal power and divine nature, have been clearly perceived, ever since the creation of the world, in the things that have been made. So they are without excuse.

“Romans 1:20 tells us that God’s eternal power and divine nature can be seen and understood through the things that are made, and that this is the reason humanity is without excuse.”

“I see physics as uncovering the evidence of God’s fingerprint at a deeper and more subtle level than the ancients could have dreamed of. He has used physics to enable me to see the evidence of his presence and creative ability. The heavens really do declare the glory of God, even more so for someone trained with physics and with eyes to see.”
